DETAILED ACTION

Drawings

The drawings were received on 12/15/2005. These drawings are acceptable for publication.

Allowable Subject Matter

Claims 10-15 are allowed.

The following is an examiner's statement of reasons for allowance: The most applicable prior art discussed within this action do not disclose the step of polishing the end face of the fiber in a single polishing step. It is therefore the opinion of the examiner that this polishing step, disclosed in claim 15 from which claims 10-13 depend, creates a distinct process, and is thereby patentable. Furthermore, the most applicable prior art discussed within this action does not disclose, nor does it reasonably suggest using the method or device discussed previously to create optical jumper cables, further including a single polishing stage to polish the end of the fiber, and an inspection and testing stage, as is disclosed in claim 14. It is therefore considered a novel device, and, in the opinion of the examiner, is thereby patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments, see page 10, filed 12/22/2005, with respect to claims 10-13 have been fully considered and are persuasive. The 35 U.S.C. §103(a) rejections of claims 10-13 have been withdrawn.
